Goodbye to stale air thanks to Lea

Lea the aroma diffuser emits the essential oils in a smart way – without the hassle of refilling or cleaning

Zug Switzerland, September 2016, Using a unique technology, Lea diffuses the aroma throughout the room directly from the fragrance oil bottle. Subtly and discreetly, Lea emits your favourite fragrance. This small and slim lady does not need a cable thanks to built-in batteries, creating a soothing fragrant experience anywhere. The interval mode ensures a long running time: Lea operates for 10 minutes followed by a 20-minute break. If Lea is only required to diffuse aroma in the room in response to brightness, then the daylight mode is the correct choice. The slim-line and elegant design of Lea was developed by Stadler Form in collaboration with the Swiss designers Fabian Bernhard and Thomas Burkard. The patent application for this unique technology is pending.

Stadler Form also presents the new 100% pure and natural essential oils from Switzerland. The fragrances Refresh, Relax and Revive can be used for all aroma diffusers as well as humidifiers and air purifiers that are equipped with a fragrance container. The oils are made from high-quality plant essences by fragrance specialists in Switzerland. The essential oils originate from ecologically sustainable production and are bottled by hand. The bottling is carried out by a Swiss social company that promotes the professional and social integration of people with mental related impairments.

Stadler Form markets its products around the globe via selected department stores and specialist retailer: recommended retail price for Lea € 69.- / USD 79.- / CHF 89.- The pure essential oils recommended retail price: € 13.90.- / CHF 14.90.- | www.stadlerform.com

Technical Data

- Power consumption: 3 W
- Interval mode (10 min. on, 20 min. off)
- Daylight mode (switches off when room is dark)
- Room size: up to 30 m²
- For any kind of aroma, max. bottle size 10 ml
- Sound level: < 25 dB(A)
- Dimensions: 57 x 202 mm
- Weight: 0.4 kg
- Aroma diffusion directly from fragrance bottle, no need for a cable (rechargeable batteries), swing mode, permanent drainage with included hose, defrost function

ABOUT STADLER FORM AKTIENGESELLSCHAFT

Stadler Form Aktiengesellschaft was founded in Zug in September 1998. The company specializes in the development, manufacture and sale of household appliances with a focus on improving indoor air quality (air purifiers, humidifiers, fans, heaters, dehumidifiers, aroma diffusers). The product development emphasis is on timeless design in combination with high-end technology. The initiator and founder of the company is Martin Stadler, who attracted a lot of attention and achieved great success in 1998 with the first product, "FRED the humidifier". Stadler Form designs and develops the appliances in Switzerland in collaboration with Swiss Designers, such as Mathias Walker (Matti), Carlo Borer, Kurt Zimmerli, Fabian Zimmerli and Bernhard I Burkard. Stadler Form products have already been internationally recognized with several design awards. The company exports its products to more than 48 countries around the world and has become a leading supplier in the field of air treatment.
