PRESS RELEASE

Stadler Form Aktiengesellschaft

Oskar big – Air humidification on a grand scale...

Zug Switzerland, September 2016, ...ensuring that not only people and animals feel good in the coming heating season but that also the wooden flooring and the furniture will be grateful for the constant air humidity. The economic air humidifier Oskar from Stadler Form has a big brother: Oskar big! Thanks to its unique V4 filter technology, the high-performance evaporative humidifier is the ideal device for large rooms of up to 100 m². With its 6-liter water tank, Oskar big is one of the largest in its class. The memo function reminds the user to change the filter and thanks to the night mode it works almost unnoticed. It is well possible that Oskar big, like its younger brother in November 2011, will be voted the test winner by "Kassensturz"!

Stadler Form markets its products around the globe via selected department stores and specialist retailer: recommended retail price for Oskar big € 259.- / USD 269.- / CHF 259.- | www.stadlerform.com

ABOUT STADLER FORM AKTIENGESELLSCHAFT

Stadler Form Aktiengesellschaft was founded in Zug in September 1998. The company specializes in the development, manufacture and sale of household appliances with a focus on improving indoor air quality (air purifiers, humidifiers, fans, heaters, dehumidifiers, aroma diffusers). The product development emphasis is on timeless design in combination with high-end technology. The initiator and founder of the company is Martin Stadler, who attracted a lot of attention and achieved great success in 1998 with the first product, "FRED the humidifier". Stadler Form designs and develops the appliances in Switzerland in collaboration with Swiss Designers, such as Mathias Walker (Matti), Carlo Borner, Kurt Zimmerli, Fabian Zimmerli and Bernhard I Burkard. Stadler Form products have already been internationally recognized with several design awards. The company exports its products to more than 48 countries around the world and has become a leading supplier in the field of air treatment.
