

Eva

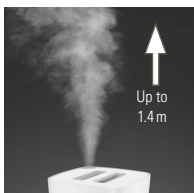

Humidifier

Stadler Form[®]
SWISS DESIGN SINCE 1998

EVA – the sensitive power-humidifier

5 output levels, suitable for direct placement on floor

Pre-heating of the water results in warm mist & higher performance

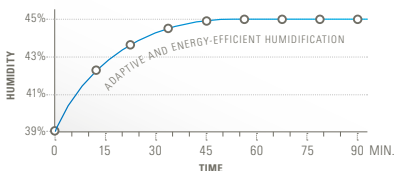

External humidity sensor for precise humidification

ADAPTIVE HUMIDITY™ technology automatically adapts the humidification output in Auto Mode in order to reach and keep the desired humidity level quietly and efficiently

WITH ADAPTIVE HUMIDITY™ (VERY QUIET)

As a power-woman, Eva blows the mist high up in the air using ultrasonic technology and provides for precise humidification with an external sensor. At the same time, the sensor serves as a remote control so that also the handling of Eva is very convenient. Despite the power, she is a sensitive lady – thanks to the Adaptive Humidity™ technology in auto mode, she automatically adjusts the output level to quietly and efficiently reach and maintain the desired humidity. The selectable water pre-heating not only increases the humidification output, but also emits a comfortable warm mist. Eva is also very flexible and offers the choice of five output levels and selectable humidity from 30% – 75%.

Specifications

Humidification output: up to 550 g/h

Room size: up to 80 m² / 200 m³

Tank capacity: 6.3 liter / Power: 10 – 95 watt

5 output levels / Remote Sensor™

Fragrance dispenser / Hygrostat

Night mode (dimnable LED lights)

Automatic shut-off / water pre-heating

Placement on floor / Auto mode

Dimensions: 196 x 418 x 196 mm (w x h x d)

Weight: 3.0 kg / Sound level: 26 – 34 dB(A)

White

Black

Accessories:
Water Cube™,
Anticalc Cartridge and
Essential oils
