

Max

Fan heater

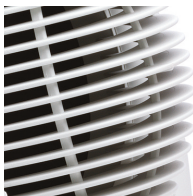

Stadler Form[®]
SWISS DESIGN SINCE 1998

MAX turns up the heat!

Selectable room temperatures
as required

Very quiet fan

Two heat levels or
alternatively a cool breeze

Convenient: hollow grip for
easy carrying

Max's heater elements warm the air, which is then blown quietly into the room, to create an agreeable temperature. Max heats during the transition period, when the main heating is not switched on – Max makes cold rooms pleasantly warm. Max warms the feet in a cold office – Max is versatile! Max blows cold air or hot air with 800 to 2'000 watt power output. The desired temperature is fully adjustable. Thermal overload protection fitted.

White

Specifications
