**1. Identification of the substance/mixture and of the company/undertaking**

- 1.1 Product identifier**  
Product code  
MULTI-COMPONENT MIXTURE  
80684  
FRAGRANCE PIN – RED JASMINE  
UFI :63F6-V7A7-F00H-6EY3
- 1.2 Relevant identified uses of the substance or mixture and uses advised against**  
Intended Use Fragrances  
Perfume compound

**1.3 Details of the supplier of the safety data sheet**

Company  
Holland Aromatics B.V.  
Transistorstraat 111, 1322 CL Almere  
The Netherlands  
Tel.+31(0)36-5 36 33 35 Fax.+31(0)365 36 55 88  
Email:perfume@hollandaromatics.nl

- 1.4 Emergency telephone number**  
Tel.+31 (0) 36-5 36 33 35

**2. Hazards identification**

**2.1 Classification of the substance or mixture**

**Classification (REGULATION (EC) No 1272/2008)**

H315 Causes skin irritation.Skin corrosion/irritation (SCI)Category 2  
H317 May cause an allergic skin reaction.Sensitization, skin (SS 1 / 1B)Category 1  
H319 Causes serious eye irritation.Serious eye damage/eye irritation (EDI)Category 2A  
H411 Toxic to aquatic life with long lasting effects.Hazardous to the aquatic environment, long-term hazard (EH C)Category 2

**2.2 Label elements**

**Labelling (REGULATION (EC) No 1272/2008)**

Hazard pictograms

GHS07

GHS09

**Signalword**  
WARNING

**Hazard statements**

H315 Causes skin irritation.  
H317 May cause an allergic skin reaction.  
H319 Causes serious eye irritation.  
H411 Toxic to aquatic life with long lasting effects.

#### Precautionary statements

- Prevention P273 Avoid release to the environment.  
P280 Wear protective gloves/protective clothing/eye protection/face protection.
- Response P302+P352 IF ON SKIN: Wash with plenty of soap and water.  
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
P332+P313 If skin irritation occurs: Get medical advice/attention.  
P337+P313 If eye irritation persists: Get medical advice/attention.  
P361 Remove/Take off immediately all contaminated clothing.  
P391 Collect spillage.

#### Hazardous components which must be listed on the label:

reaction mass of 2-methylbutyl salicylate and pentyl salicylate  
alpha-methyl-1, 3-benzodioxole-5-propanal  
formaldehyde cyclododecyl ethyl acetal  
2-methyl-3-(para-methoxy phenyl)propanal  
cerdyl methyl ether  
3-phenylpropen-2-ol-1  
3,7-dimethyl-6-octen-1-ol (dl-citronellol)  
n-dodecane nitrile  
coumarine  
2-methyl-4-isopropylidihydrocinnamaldehyde  
trimethyl-1,3-cyclohexadienyl-2butenon  
3,7-dimethyl-1,6-nonadien-3-ol (ethyl linalool)  
a-dimethyl hydrocinnamaldehyde  
2-(2-methyl propyl)-4-hydroxy-4-methyl tetrahydropyran  
trans-3,7-dimethyl-2,6-octadien-1-ol (geraniol)  
3,7-dimethyl-2,6-octadien-1-yl-acetate  
e- and z-oxacyclohexadec-12(+13)-en-2-one  
1,3-benzodioxole-5-carboxaldehyde / piperonal  
beta, gamma-hexenyl salicylate  
(E)-4-(2,6,6-trimethylcyclohex-1-en-1-yl)-but-3-en-2-one  
7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnaphthalene

#### 2.3 Other hazards

This substance/mixture does not contain components classified as persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: This substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: This substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### 4. First aid measures

##### 4.1 Description of first aid measures

|                         |  |
|-------------------------|--|
| General advice          | Move out of dangerous area. Consult a physician.<br>Show this safety data sheet to the doctor in attendance.<br>Do not leave the victim unattended.  |
| If inhaled              | If unconscious place in recovery position and seek medical advice.<br>If symptoms persist, call a physician.   |
| In case of skin contact | If on skin, rinse well with water.   |
| In case of eye contact  | In the case of contact with eyes, rinse immediately with plenty of water and seek medical advice.<br>Remove contact lenses.<br>Protect unharmed eye.<br>Keep eye wide open while rinsing.<br>If eye irritation persists, consult a specialist. |
| If swallowed            | Keep respiratory tract clear.<br>Do NOT induce vomiting.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>Take victim immediately to hospital.   |

##### 4.2 Most important symptoms and effects, both acute and delayed

|          |                   |
|----------|-------------------|
| Symptoms | no data available |
|----------|-------------------|

##### 4.3 Indication of any immediate medical attention and special treatment needed

|           |                   |
|-----------|-------------------|
| Treatment | no data available |
|-----------|-------------------|

#### 5. Fire-fighting measures

##### 5.1 Extinguishing media

|                                |  |
|--------------------------------|--|
| Suitable extinguishing media   | Dry chemical<br>Alcohol-resistant foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Water spray |
| Unsuitable extinguishing media | High volume water jet  |

##### 5.2 Special hazards arising from the substance or mixture

|                                      |   |
|--------------------------------------|---|
| Specific hazards during firefighting | Do not allow run-off from fire fighting to enter drains or water courses. |
|--------------------------------------|---|

##### 5.3 Advice for firefighters

|  |  |
|--|--|
| Special protective equipment for fire-fighters | Wear self contained breathing apparatus for fire fighting if necessary.  |
| Further information                            | Collect contaminated fire extinguishing water separately. This must not be discharged into drains. Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. |

#### 6. Accidental release measures

##### 6.1 Personal precautions, protective equipment and emergency procedures

|                      |                                    |
|----------------------|------------------------------------|
| Personal precautions | Use personal protective equipment. |
|----------------------|------------------------------------|

##### 6.2 Environmental precautions

|                           |   |
|---------------------------|---|
| Environmental precautions | Prevent product from entering drains.<br>Prevent further leakage or spillage if safe to do so.<br>If the product contaminates rivers and lakes or drains inform respective authorities. |
|---------------------------|---|

##### 6.3 Methods and materials for containment and cleaning up

|                         |   |
|-------------------------|---|
| Methods for cleaning up | Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).<br>Keep in suitable, closed containers for disposal. |
|-------------------------|---|

##### 6.4 Reference to other sections

not applicable

#### 7. Handling and storage

|         |              |                                    |            |                      |
|---------|--------------|------------------------------------|------------|----------------------|
| Product | <b>80684</b> | <b>FRAGRANCE PIN – RED JASMINE</b> |            |                      |
| Version | 12.0         | Revisiondate                       | 28-02-2025 | Printdate 19-08-2025 |

### 7.1 Precautions for safe handling

|   |  |
|---|--|
| Advice on safe handling                         | Avoid exposure - obtain special instructions before use.<br>Avoid contact with skin and eyes.<br>For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the application area.<br>To avoid spills during handling keep bottle on a metal tray.<br>Dispose of rinse water in accordance with local and national regulations. |
| Advice on protection against fire and explosion | Normal measures for preventive fire protection.  |
| Temperature class                               | no data available  |
| Fire-fighting class                             | no data available  |
| Dust explosion class                            | no data available  |

### 7.2 Conditions for safe storage, including any incompatibilities

|   |   |
|---|---|
| Requirements for storage areas and containers | Keep container tightly closed in a dry and well-ventilated place.<br>Containers which are opened must be carefully resealed and kept upright to prevent leakage.<br>Electrical installations / working materials must comply with the technological safety standards. |
| Further information on storage conditions     | no data available   |
| Advice on common storage                      | no data available   |
| German storage class                          | no data available   |
| Other data                                    | No decomposition if stored and applied as directed.   |

### 7.3 Specific end uses

|                 |                   |
|-----------------|-------------------|
| Specific use(s) | no data available |
|-----------------|-------------------|

## 8. Exposure controls/personal protection

### 8.1 Control parameters

#### BENZYL ACETATE

### 8.2 Exposure controls

#### Personal protective equipment

|                          |   |
|--------------------------|---|
| Hand protection          | Use protective gloves. Gloves must comply with standard EN 374-1/2/3.<br>Suitable material: Nitrile<br>Breakthrough time (maximum wearing time): >30 min.<br>Thickness of the material: 0.13 mm |
| Eye protection           | Eye wash bottle with pure water<br>Tightly fitting, approved safety goggles with side shields with standard EN166.<br>Wear face-shield and protective suit for abnormal processing problems.    |
| Skin and body protection | impervious clothing<br>Choose body protection according to the amount and concentration of the dangerous substance at the work place.   |
| Hygiene measures         | When using do not eat or drink.<br>When using do not smoke.<br>Wash hands before breaks and at the end of workday.  |

#### Environmental exposure controls

|                |   |
|----------------|---|
| General advice | Prevent product from entering drains.<br>Prevent further leakage or spillage if safe to do so.<br>If the product contaminates rivers and lakes or drains inform respective authorities. |
|----------------|---|

### 9. Physical and chemical properties

#### 9.1 Information on basic physical and chemical property

|                              |                      |
|------------------------------|----------------------|
| Physical state               | liquid               |
| Form                         | liquid               |
| Color                        | not determined       |
| Odor                         | not determined       |
| Odour Threshold              | not applicable       |
| Flash point                  | >100°C               |
| Lower explosion limit        | not determined       |
| Upper explosion limit        | not determined       |
| Flammability (solid, gas)    | not applicable       |
| Oxidizing properties         | not applicable       |
| Autoignition temperature     | not determined       |
| Decomposition temperature    | no data available    |
| pH                           | not determined       |
| Melting point                | not determined       |
| Boiling point                | not determined       |
| Vapour pressure              | not determined       |
| Density                      | not determined       |
| Bulk density                 | not applicable       |
| Water solubility             | not determined       |
| Solubility/qualitative       | practically insolubl |
| Partition coeff noctanol/H2O | not applicable       |
| Viscosity, kinematic         | no data available    |
| Relative vapour density      | no data available    |
| Evaporation rate             | no data available    |
| Explosive properties         | no data available    |

#### 9.2 Other information

not applicable

### 10. Stability and reactivity

#### 10.1 Reactivity

none

#### 10.2 Chemical stability

The product is chemically stable.

### 10.3 Possibility of hazardous reactions

Hazardous reactions No decomposition if stored and applied as directed.

### 10.4 Conditions to avoid

Conditions to avoid no data available

### 10.5 Incompatible materials

Materials to avoid no data available

### 10.6 Hazardous decomposition products

Hazardous decomposition products  
no data available  
Thermal decomposition no data available

## 11. Toxicological information

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

|   |   |   |
|---|---|---|
| <b>Acute orale toxicity</b>                               | Estimated Acute toxicity Dosis mg/kg :  | 2952  |
| Method  | Calculationmethod                       |   |
| <b>Acute inhalation toxicity</b>                          | Estimated Acute toxicity Dosis mg/ltr : |   |
| Method  | Calculationmethod                       | No data is available on the product itself. |
| <b>Acute dermale toxicity</b>                             | Estimated Acute toxicity Dosis mg/kg :  | 3029  |
| Method  | Calculationmethod                       |   |
| <b>Acute toxicity (other routes of administration)</b>    |   | No data is available on the product itself. |
| <b>Skin corrosion/irritation</b>                          |   |   |
| Skin irritation   |   | No data is available on the product itself. |
| <b>Serious eye damage/eye irritation</b>                  |   |   |
| Eye irritation  |   | No data is available on the product itself. |
| <b>Respiratory or skin sensitization</b>                  |   |   |
| Sensitisation   |   | No data is available on the product itself. |
| <b>Germ cell mutagenicity</b>                             |   |   |
| Germ cell mutagenicity                                    |   | No data is available on the product itself. |
| <b>Carcinogenicity</b>                                    |   |   |
| Carcinogenicity   |   | No data is available on the product itself. |
| <b>Reproductive toxicity</b>                              |   |   |
| Reproductive toxicity                                     |   | No data is available on the product itself. |
| <b>Target Organ Systemic Toxicant - Single exposure</b>   |   |   |
| Target Organ Systemic Toxicant - Single exposure          |   | No data is available on the product itself. |
| <b>Target Organ Systemic Toxicant - Repeated exposure</b> |   |   |
| Target Organ Systemic Toxicant - Repeated exposure        |   | No data is available on the product itself. |
| <b>Aspiration hazard</b>                                  |   |   |
| Aspiration toxicity                                       |   | No data is available on the product itself. |
| <b>Phototoxicity</b>                                      |   |   |
| Phototoxicity   |   | No data is available on the product itself. |
| <b>Further information</b>                                |   | no data available                           |

### 11.2 Information on other hazards

#### Endocrine disrupting properties Assessment

This substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

**Further information** no data available

|         |       |                             |

| Product | 80684 | FRAGRANCE PIN – RED JASMINE |
| Version | 12.0  | Revisiondate 28-02-2025     |
|         |       | Printdate 19-08-2025        |

## 12. Ecological information

### 12.1 Toxicity

|  |                   |
|--|-------------------|
| Toxicity to fish                                     | no data available |
| Toxicity to daphnia and other aquatic invertebrates. | no data available |
| Toxicity to algae                                    | no data available |

### 12.2 Persistence and degradability

|  |                   |
|--|-------------------|
| Biodegradability                               | no data available |
| Biodegradability BO (Biodegradable Organics) % | 97,1              |

### 12.3 Bioaccumulative potential

|                 |                   |
|-----------------|-------------------|
| Bioaccumulation | no data available |
|-----------------|-------------------|

### 12.4 Mobility in soil

|   |                   |
|---|-------------------|
| Mobility  | no data available |
| Distribution among environmental compartments     | no data available |
| Additional advice Environmental fate and pathways | no data available |
| Physico-chemical removability                     | no data available |

### 12.5 Results of PBT and vPvB assessment

#### Assessment

This substance/mixture does not contain components classified as persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### 12.6 Endocrine disrupting properties

#### Assessment

This substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### 12.7 Other adverse effects

|                                       |   |
|---------------------------------------|---|
| Biochemical Oxygen Demand (BOD)       | no data available   |
| Dissolved organic carbon (DOC)        | no data available   |
| Chemical Oxygen Demand (COD)          | no data available   |
| Adsorbed organic bound halogens (AOX) | no data available   |
| Additional ecological information     | An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. |

## 13. Disposal considerations

### 13.1 Waste treatment methods

|                               |  |
|-------------------------------|--|
| Product                       | The product should not be allowed to enter drains, water courses or the soil.<br>Do not contaminate ponds, waterways or ditches with chemical or used container.<br>Send to a licensed waste management company. |
| Contaminated packaging        | Empty remaining contents.  |
| Dispose of as unused product. | Do not re-use empty containers.<br>Dispose of in accordance with local regulations.  |

## 14. Transport information

|         |              |  |
|---------|--------------|--|
| Product | <b>80684</b> | <b>FRAGRANCE PIN – RED JASMINE</b>                         |
| Version | <b>12.0</b>  | Revisiondate <b>28-02-2025</b> Printdate <b>19-08-2025</b> |

**ADR/RID/ADN**

UNnumber UN-number 3082 (Environmentally hazardous substance, liquid, N.O.S.)

Description of Goods ( reaction mass of 2-methylbutyl salicylate and pentyl salicylate & 7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnapthalene )

Transportclass and packaging group 9 PG III

Dangerous for the environment yes

Additional information Special Provision 375: this product is not subject to the other provisions of the ADR when transported in sizes of ≤5L or ≤5kg, provided that the packaging complies with the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.

**IATA/ICAO**

UNnumber UN-number 3082 (Environmentally hazardous substance, liquid, N.O.S.)

Description of Goods ( reaction mass of 2-methylbutyl salicylate and pentyl salicylate & 7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnapthalene )

Transportclass and packaging group 9 PG III

Dangerous for the environment yes

Additional information Special Provision A197: this product is not subject to the other provisions of IATA when transported in sizes of ≤5L or ≤5kg, provided that the packaging complies with the general provisions of 5.0.2.4.1, 5.0.2.6.1.1 and 5.0.2.8 .

**IMDG**

UNnumber UN-number 3082 (Environmentally hazardous substance, liquid, N.O.S.)

Description of Goods ( reaction mass of 2-methylbutyl salicylate and pentyl salicylate & 7-acetyl-(1,8)-octahydro-1,1,6,7-tetramethylnapthalene )

Transportclass and packaging group 9 PG III

marine pollution yes

Additional information

IMDG 2.10.2.7: this product is not subject to the other provisions of the IMDG when transported in sizes of ≤5L or ≤5kg, provided that the packages comply with the general provisions of 4.1.1.1, 4.1.1.2 and 4.1.1.4 to 4.1.1.8.

## **15. Regulatory information**

### **15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

ABM Cat Water hazard class NL (ABM) Cat A2

WGK WGK2

### **15.2 Chemical Safety Assessment**

A chemical safety assessment is not required for this substance

## **16. Other information**

### **Full text of H-Statements referred to under sections 2 and 3.**

H226 Flammable liquid and vapour.

H332 Harmful if inhaled.

H302 Harmful if swallowed.

H304 May be fatal if swallowed and enters airways.

H314 Causes severe skin burns and eye damage.

H314 Causes severe skin burns and eye damage.

H315 Causes skin irritation.

H317 May cause an allergic skin reaction.

H318 Causes serious eye damage.

H319 Causes serious eye irritation.

H336 May cause drowsiness or dizziness.

H361 Suspected of damaging fertility or the unborn child <state specific effect if known> <state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard>.

H400 Very toxic to aquatic life.

H410 Very toxic to aquatic life with long lasting effects.

H411 Toxic to aquatic life with long lasting effects.

H412 Harmful to aquatic life with long lasting effects.

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

On 27 July 2023, the EU Regulation extending the list of fragrance allergens to be labelled in cosmetic products was published in the Official Journal of the European Union.

The Regulation has updated Annex III of the Cosmetic products Regulation with 56 new fragrance ingredients for which the presence should be indicated on the label in case of being above the established thresholds for leave-on and rinse off products (0,001 and 0,01%).

The regulation enters into force on 16 August 2023, with a transition period of 3 years for new products and 5 years for existing products.

To whom it concerns

#### Musk statement

product 80684 FRAGRANCE PIN – RED JASMINE contains the following ingredients:

0,00 % (Musk) Nitromusk  
0,00 % (Musk) Polycyclic musk  
5,50 % (Musk) Macrocyclic musk

#### Vegan declaration

We have reviewed this product and declare that, to the best of our knowledge, it is suitable for the Vegan diet. Vegan products do not contain animal ingredients (mammalian, poultry, fish, shellfish, mollusk, insects) as well as ingredients derived from animal such as dairy, eggs and bee products or animal enzymes.

#### GMO directly added

(Declaration Limit: 0,01%)

According to the formulation – this fragrance oil does not contain ingredients produced on the basis of genetically modified organisms.

#### Animal Testing

We herewith confirm that our fragrances have not been the subject of animal testing by or on behalf of our company.

#### BSE / TSE

(Declaration Limit: 0,01%)

Our fragrances are mixtures of natural (plant origin) and synthetic products. To the best of our knowledge it does not contain any ingredients which may be suspected of BSE / TSE.

#### Heavy metals

Holland Aromatics does not use any heavy metal for direct addition into fragrances, bases and ingredients. Holland Aromatics does not undertake routine analysis on heavy metals and the potential presence of heavy metals in ingredient is of the order of magnitude of unavoidable traces. Based on our experience and to the best of our knowledge, the total quantity of heavy metals that may be present in this product are significantly below the limits defined in applicable regulations.

#### Nanomaterials

We certify, to the best of our knowledge, that this product does not contain any ingredient defined as a nanomaterial according to the article 2 of Cosmetic Regulation 1223/2009.

“Nanomaterial” means an insoluble or biopersistent and intentionally manufactured material with one or more external dimensions, or an internal structure, on the scale from 1 to 100nm.

**HICC (Lyril), atranol and chloratranol**

Please note that Commission Regulation (EU) 2017/1410 of 2 August 2017 amending Annexes II and III to Regulation (EC) No 1223/2009 of the European Parliament and of the Council on cosmetic products has been published in the Official Journal of August 3rd, 2017.

HICC, Atranol and chloratranol have been added to Annex II of the Cosmetic Products Regulation (list of substances prohibited in cosmetic products) with the entries 1380, 1381 and 1382:

- 3-(4-Hydroxy-4-methylpentyl) cyclohex-3-ene-1-carbaldehyde [CAS# 51414-25-6]
- 4-(4-Hydroxy-4-methylpentyl) cyclohex-3-ene-1-carbaldehyde [CAS# 31906-04-4]
- Atranol [CAS# 526-37-4]
- chloratranol [CAS# 57074-21-2]

Commission Regulation (EU) 2017/1410 also deletes the Annex III entry (79) for HICC with application from 23rd August 2021.

The presence of atranol and chloratranol, being natural components of oak tree moss and treemoss extracts<sup>1</sup>, is banned above technically unavoidable traces in good manufacturing practice. As purity requirements for both moss extracts have been established in IFRA Standards since 2009, all products on shelves should be compliant by the entry into force of this regulation.

The transitional periods are the following:

- From 23 August 2019, cosmetic products containing one or more of these substances shall not be placed on the European Union market.
- From 23 August 2021, cosmetic products containing one or more of these substances shall not be made available on the Union market.

### BMHCA (Lilial) ban in cosmetics

The 15th ATP1 to the EU CLP2 regulation, COMMISSION DELEGATED REGULATION (EU) 2020/1182, has been published on August 11th, 2020, in the Official Journal and will apply from 1 March 2022. It lists BMHCA (Lilial) on Annex VI as toxic for Reproduction category 1B (Rep. 1B, H360Fd).

Subsequently, BMHCA (Lilial) will be banned for the use in cosmetic products in the EU. The EU Commission will include this substance in the CMR Omnibus Act IV for integration into Annex II (list of prohibited substances in cosmetics) of the EU Cosmetics Regulation.

This means that by 1 March 2022 the use of BMHCA (lilial) in cosmetic products (new and existing) will be banned in the EU. All products containing BMHCA (lilial) should be off the shelf by this date.

It is important to highlight that the above-mentioned regulatory events and activities are limited to the EU. The use of BMHCA in cosmetic products outside the EU remains unaffected.

### BMHCA (Lilial) restriction in household products (e.g. detergents, household and cleaning products, air-fresheners)

Please be informed that the ban of BMHCA also imposes a restriction to the placing on the market and use of BMHCA in household products for consumers and professional users.

The restriction, in practice, implies the following:

- **BMHCA cannot be placed on the market or used**, in products sold to the general public (consumers) **when its concentration is equal or above** the generic concentration limit specified in part 3 of Annex I of the EU CLP - i.e. **0.3%** (final product (mixture) is not classified as Rep 1B).
- **BMHCA may be placed on the market and used in products sold for professional use** above the classification concentration limit of **equal or above 0.3%** (product is classified as Rep 1B). In this case the packaging of such substances and mixtures has to be **marked** visibly, legibly and indelibly as **'Restricted to professional users'**.

This restriction applies to BMHCA as such, as constituent of other substances, or, in mixtures.

If the same applicability date as the EU CLP harmonized classification will be used, this would mean that from 1 March 2022 onward, consumer products containing 0.3% or more of BMHCA can no longer be sold in the EU.

0,000 % • BMHCA (Lilial)[CAS# 80-54-6]

### Karanal on the EU – REACH Authorization List

- Karanal [CAS# 117933-89-8] - No use (delisted from pallet 17th July, 2023)

Code 80684

**FRAGRANCE PIN – RED JASMINE**

19-08-2025

We would like to inform you that, with the inclusion of Karanal (CAS 117933-89-8) on the EU REACH Authorization List, Holland Aromatics has defined a reformulation plan which consists of replacing Karanal with a combination of ingredients that will give the same olfactive character, performance and stability.

Holland Aromatics ensures that product safety and regulatory compliance are not impacted by the formula change. The materials used for the reformulation have been thoroughly reviewed and specifically selected based on their regulatory and safety profile so that the reformulation formula shows no negative impact on the final classification/safety of the formula or the allergen levels. Thus the modified formula is safe for consumer use and regulatory compliant.

The commercial name and code of the reformulated fragrance will not change.

The placing on the market and the use of Karanal (including the use in cosmetic products) will be prohibited from 27 August 2023 onwards. Fragrance batches produced after 27 August 2023 will be reformulated and free from Karanal.

This does not impact the use of Karanal in other regions outside of the EU. Customers outside of Europe may be impacted if their products are manufactured or marketed in Europe. If you have any questions, please contact your client support representative.

## REACH

We, Holland Aromatics B.V., declare, to the best of our knowledge, that we are in compliance with our obligations according to the REACH Regulation (EC) No. 1907/2006 and its modifications and updates for the substances contained in the fragrance compound(s)/ingredient(s) delivered to customer.

All substances supplied by Holland Aromatics B.V., as well as substances contained in our mixtures are either:

- Registered (Holland Aromatics B.V. act as a downstream user as defined by the REACH Regulation), or
- Exempted of Registration

Any substances out of scope e.g. exempted substances or substances below the threshold for registration under REACH (<1tpa) are allowed to be used in products without registration in the EU.

The above mentioned information is continuously checked by us and also demanded to our suppliers. We also continue to monitor the ongoing amendments of the Regulation and will update our compliance statement as appropriate.

**Biodegradability BO (Biodegradable Organics) % 97,1**

Code 80684

**FRAGRANCE PIN – RED JASMINE**

19-08-2025

Please be aware that fragrance compounds are not tested for biodegradability. The biodegradability of a fragrance compound is assured based on data on the components and is assessed by summing the percentage (by weight) of ingredients which are biodegradable. The following criteria have been used to identify "biodegradable" fragrance ingredients used in above mentioned fragrance compound:

1. Biodegradable following internationally accepted OECD/ISO guideline studies accepted by authorities.
  - The tests include OECD 301 series, OECD 310, OECD 302 series and ISO 14593;
  - The pass criterion in these tests is 60-70% within 14 or 28 days (depending on the test and the endpoint measured);
  - If biodegradation has started but a plateau has not been reached, the test may be prolonged (typically up to 60 days).
2. Use of simple structural read-across from known biodegradable ingredients to structurally very close analogues that are therefore fully expected also to be biodegradable.
3. Natural complex substances (e.g. essential oils) are assessed based on either test data for the NCS itself or data for the constituents.

#### **Publication of final Regulation of Methyl-N-methylantranilate in cosmetic products in Europe**

We would like to inform you that Commission Regulation (EU) 2022/135 has been published in the Official Journal of the European Union on January 31, 2022. It amends Regulation (EC) No 1223/2009 of the European Parliament and of the Council as regards the use of Methyl-N-methylantranilate in cosmetic products.

It sets maximum use levels of 0.1% in leave-on products and 0.2% in rinse-off products. Please note that the material should not be used in sunscreen products and products marketed for exposure to natural or artificial UV light.

From 21 August 2022 cosmetic products containing the substance and not complying with the restrictions shall no longer be placed on the EU market (i.e. new products). From 21 November 2022 the products shall not be made available (i.e. existing products) on the Union market.

**0,000 % Methyl-N-methylantranilate**

#### **Benzophenone - Publication of the 18th ATP to the EU CLP Regulation**

We would like to inform you that the 18th ATP to the EU CLP regulation, (COMMISSION DELEGATED REGULATION (EU) 2022/692) was published on May 3rd, 2022 and will enter into force on the twentieth day following that of its publication in the Official Journal of the European Union.

Code 80684

**FRAGRANCE PIN – RED JASMINE**

19-08-2025

The new/revised classifications shall apply as from 1 December 2023.

Please note that index number 606-153-00-5 corresponds to benzophenone (CAS No 119-61-9 / EINECS No 204-337-6) classified as Carcinogenic 1B (H350).

This means that this substance will be restricted in household products and air care products in the EU according to the REACH restriction entry number 28 (see REACH Annex XVII).

Regarding the use of benzophenone in cosmetics, it will be forbidden for this use on 1 December 2023 if no exemption request is submitted according to article 15.2 of the Cosmetics Regulation. This will happen through the publication of a CMR Omnibus to the EU Cosmetics Regulation.

**0,000 % Benzophenone**

#### Natural Origin Content

Natural Origin Content according to ISO 16128:

#### SCCS/1656/23 Preliminary Opinion

##### Benzyl Salicylate (CAS No. 118-58-1, EC No. 204-262-9)

Based on the data provided and assessed and taking under consideration the concerns related to potential endocrine disrupting properties, the SCCS considers Benzyl Salicylate safe when used up to the maximum concentrations provided in Table 1 of this Opinion.

Table 1: Maximum use concentrations of benzyl salicylate in cosmetic products

| Type of cosmetic product exposure   | Maximum % concentration used |
|---|------------------------------|
| Hydroalcoholic-based fragrances (spray and non-spray)                     | 4                            |
| Rinse-off skin & hair products (except rinse off body products)           | 0.5                          |
| Rinse off body products   | 1.3                          |
| Leave on skin & hair products (non-spray/non-aerosol)(except body lotion) | 0.5                          |
| Leave on hair products (spray/aerosol)                                    | 0.5                          |

Code 80684

19-08-2025

|  |       |
|--|-------|
| Leave on body products (non-spray/spray/aerosol) | 0.7   |
| Face make-up products and make-up remover        | 0.2   |
| Oral care  | 0.004 |
| Deodorant products (spray/aerosol)               | 0.91  |

**0,000 % Benzyl Salicylate**

#### **Hexyl Salicylate (CAS No. 6259-76-3)**

#### **Publication of the 22nd ATP to the EU CLP Regulation**

We would like to inform you that the 22nd ATP to the EU CLP regulation, (COMMISSION DELEGATED REGULATION (EU) 2024/2564) was published on 30 September 2024, in the Official Journal of the European Union, listing Hexyl Salicylate (HS) under Index number 607-772-00-3 with Repr. 2 / H361d and Skin Sens. 1 / H317 classifications

An SCCS dossier was submitted to be able to continue using this ingredient in cosmetic products. A final SCCS Opinion is available for adults and children equal or above 3 years old, and a preliminary Opinion on children below 3 years of age is being finalized.

On the basis of theses 2 Opinions and following the usual procedure, the European Commission will prepare the CMR Omnibus Regulation, and the use of Hexyl Salicylate in cosmetic products will need to comply with the restrictions laid down in Annex III of the Cosmetic Products Regulation. These restrictions will apply on the same date as the application of the harmonized classification, which is 1 May 2026.

#### **SCCS/1668/24 Final Opinion on Hexyl Salicylate (CAS/EC No. 6259-76-3/228-408-6)**

Based on the assessment of data provided, given the CMR Cat. 2 classification (Annex VI EC/1272/2008)) and taking into consideration all toxicological endpoints, including potential endocrine disrupting effects, the SCCS considers Hexyl Salicylate safe for children up to 3 years old when used up to the maximum concentrations as below:

- \* 0.1 % (w/w) for shower gel, hand soap, shampoo, hair conditioner, body lotion, face cream, hand cream, lipstick/lip balm, fragrance products
- \* 0.001% (w/w) for toothpaste.

#### **SCCS/1658/23 Final Opinion on Hexyl Salicylate (CAS/EC No. 6259-76-3/228-408-6)**

Code 80684

**FRAGRANCE PIN – RED JASMINE**

19-08-2025

Based on the assessment of data provided and taking into consideration the concerns related to potential endocrine disrupting properties, the SCCS considers Hexyl Salicylate safe when used up to the maximum concentrations as provided in Table 1 of this Opinion.

Table 1: Maximum concentrations of Hexyl Salicylate in cosmetic products as reported in the dossier submission.

| Product type, Body parts             | Maximum concentration |
|--------------------------------------|-----------------------|
| Hydroalcoholic-based fragrances      | 2                     |
| All Rinse-off products               | 0.5                   |
| All Leave on products                | 0.3                   |

**0,000 % Hexyl Salicylate**

**Heliotropine (CAS: 120-57-0) – ECHA RAC adopted their Opinion on the harmonized classification and labelling (CLH) proposal as toxicity to reproduction Category 1B.**

We would like to inform you that the ECHA RAC 69 plenary meeting of June 4, 2024 has adopted the Opinion to classify Heliotropine / piperonal; 1,3-benzodioxole-5-carbaldehyde (CAS: 120-57-0) as follows: skin sensitisation (Skin Sens. 1B; H317) and toxic to reproduction (Repr. 1B; H360FD).

We also remind you of the regulatory consequences under the EU Cosmetic Products Regulation (Regulation (EC) No 1223/2009), i.e., a ban if no exemption is granted, and under the EU REACH Regulation (Annex XVII), i.e., a restriction equal to or above the classification concentration limit of 0.3%, in relation to substances with harmonised classification and labelling as CMR 1B.

#### Next steps in the regulatory process.

**ECHA RAC adopts Opinions on the CLH proposals for seven fragrance ingredients, classifying them as Toxic for Reproduction Category 1B (Repr. 1B)**

We would like to inform you that following the plenary meeting of 27 and 28 November 2024, the ECHA RAC has adopted Opinions classifying seven fragrance ingredients as Repr. 1B; H360FD.

**Next steps**

1. The ECHA RAC will now finalise their opinion and publish it on their website on Q1 2025.
2. ECHA will add these substances to the table of ECHA RAC Opinions published in 2025 to be transmitted to the European Commission by the end of 2025.
3. The ECHA list with 2025 ECHA RAC Opinions will be discussed by the CARACAL in 2026.
4. The publication of the ATP amending Annex VI of the EU CLP to add/modify these classifications is also expected to take place in 2026.

We would like to note that the ECHA RAC Opinion classifying tea tree oil (CAS numbers 85085-48-9 and 68647-73-4) as Repr. 1B was published early 2024 and has been added to the CLP 24th ATP to be discussed and published in 2025.

We also remind you of the regulatory consequences under the EU Cosmetic Products Regulation (Regulation (EC) No 1223/2009), i.e., a ban if no exemption is granted, and under the EU REACH Regulation (Annex XVII), i.e., a restriction equal to or above the classification concentration limit of 0.3%, in relation to substances with harmonised classification and labelling as CMR 1B.

| Name                | CAS Number |       |   |

**2. Category n. 2:** *Leave on products generally applied to axillae.*

Products in this Cat.: *Leave on products generally applied to axillae.*

- Deodorant and antiperspirant products of all types (spray, stick, roll-on, etc.);
- Body sprays (including body mist).

**3. Category n. 3:** *Products generally applied to the face using fingertips.*

Products in this Cat.: *Products generally applied to the face using fingertips.*

- Eye products of all types (eye shadow, mascara, eye-liner, make-up, etc.);
- Facial make up and foundation;
- Make-up remover for face and eyes;
- Nose pore strips;
- Wipes or refreshing tissues for face, neck, hands, body;
- Body and face paint (children and adults);
- Facial masks for face and around the eyes.

**4. Category n. 4:** *Fragrancing products generally applied to neck, face and wrists.*

Products in this Cat.: *Fragrancing products generally applied to neck, face and wrists.*

- Hydroalcoholic and non-hydroalcoholic fine fragrance of all types (EDT, Parfum, Cologne, solid perfume, fragrancing cream, etc.), aftershaves of all types (except creams and balms);
- Fragranced bracelets;
- Ingredients of perfume kits and fragrance mixtures for cosmetic kits;
- Scent pads, foil packs;
- Scent strips for hydroalcoholic products.

**5. Category n. 5:** *Leave on products applied to the face and body using the hands (palms).*

• **Subcategory n. 5/A:**

Products in this Cat.: *Products applied to feet and body not belonging to other subcats.*

- Body creams, oils, lotions of all types;
- Foot care products (creams and powders);
- Insect repellent (intended to be applied to the skin);
- All powders and talc (excluding baby powders and talc).

• **Subcategory n. 5/B:**

Products in this Cat.: *Products in Cat. 5 applied to the face.*

- Facial toner;
- Facial moisturizers and creams (including care products for beard and mustache);

• **Subcategory n. 5/C:**

Products in this Cat.: *Products in Cat. 5 applied to the hands.*

- Hand cream;
- Nail care products including cuticle creams, nail lacquer remover, etc.;
- Hand sanitizers.

• **Subcategory n. 5/D:**

Products in this Cat.: *Products in Cat. 5 for children.*

– Baby cream/lotion, baby oil, baby powders and talc.

**6. Category n. 6:** *Rinse off products with lip and oral exposure.*

Products in this Cat.: *Rinse off products with lip and oral exposure.*

- Toothpaste;
- Mouthwash, including breath sprays;
- Toothpowder, strips, mouthwash tablets.

**7. Category n. 7:** *Products applied to hair with hand contact.*

• **Subcategory n. 7/A:**

Products in this Cat.: *hair permanent and other rinse-off treatments.*

– Hair permanent or other hair chemical treatments (rinse-off) (e.g. relaxers), including rinse-off hair dyes.

• **Subcategory n. 7/B:**

Products in this Cat.: *other leave-on treatments, as follows.*

- Hair sprays of all types (pumps, aerosol sprays, etc.);
- Hair styling aids non sprays (mousse, gels, leave-on conditioners);
- Hair permanent or other hair chemical treatments (leave-on) (e.g. relaxers), including leave-on hair dyes;
- Shampoo-Dry (waterless shampoo);
- Hair deodorizer, hair perfume (marketed specifically for hair).

**8. Category n. 8:** *Products with significant anogenital exposure.*

Products in this Cat.: *Products with significant anogenital exposure.*

- Intimate wipes;
- Intimate deodorant spray;
- Tampons;
- Baby wipes;
- Toilet paper (wet).

**9. Category n. 9:** *Rinse off products with body and hand exposure.*

Products in this Cat.: *Rinse off products with body and hand exposure.*

- Bar soap;
- Shampoo of all types;
- Cleanser for face (rinse-off);
- Conditioner (rinse-off);
- Liquid soap;
- Body washes and shower gels of all types;
- Baby wash, bath, shampoo;
- Bath gels, foams, mousses, salts, oils and other products added to bathwater (e.g. bath bombs);
- Foot care products (feet are placed in a bath for soaking);

## IFRA CONFORMITY CERTIFICATE 51st Amendment

Code **80684**

**FRAGRANCE PIN – RED JASMINE**

- Shaving creams of all types (stick, gels, foams, etc.);
- All depilatories (including facial) and waxes for mechanical hair removal;
- Shampoos for pets.

**10. Category n. 10:** *Household care products with mostly hand contact.*

• **Subcategory n. 10/A:**

Products in this Cat.: *Mostly rinse-off products, as follows.*

- Hand wash laundry detergent (including concentrates);
- Laundry pre-treatment of all types (e.g. paste, sprays, sticks);
- Hand dishwashing detergent (including concentrates);
- Hard surface cleaners of all types (bathroom and kitchen cleansers, furniture polish, leather cleaning wipes, treatment products for textiles, etc.);
- Machine laundry detergents with skin contact (e.g. liquids, powders) incl. concentrates;
- Dry cleaning kits (involving manual application on the textile);
- Toilet seat wipes;
- Fabric softeners of all types excluding fabric softener sheets;
- Household cleaning products, other types including fabric cleaners, soft surface cleaners, carpet cleaners, furniture polishes sprays and wipes, etc.;
- Floor wax;
- Fragranced oil for lamp ring, reed diffusers, pot-pourri, liquid refills for air fresheners (noncartridge systems), etc.;
- Ironing water (Odorized distilled water).

• **Subcategory n. 10/B:**

Products in this Cat.: *Mostly leave-on products, as follows.*

- Animal sprays: sprays applied to animals of all types;
- Air freshener sprays, manual, including aerosol and pump;
- Aerosol/spray insecticides.

**11. Category n. 11:** *Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate.*

• **Subcategory n. 11/A:**

Products in this Cat.: *Products with intimate contact.*

- Feminine hygiene conventional pads, liners, interlabial pads;
- Baby diapers;
- Incontinence pant, pad;
- Toilet paper (dry).

• **Subcategory n. 11/B:**

Products in this Cat.: *Products without intimate contact.*

- Tights with moisturizers;
- Scented socks, gloves;
- Facial tissues (dry tissues);
- Napkins;

- Pillow spray;
- Paper towels;
- Wheat bags;
- Facial masks (paper/protective) e.g. surgical masks not used as medical device;
- Fertilizers, solid (pellet or powder).

**Category n. 12:** *Products not intended for direct skin contact, minimal or insignificant transfer to skin.*

Products in this Cat.: *Products not intended for direct skin contact, minimal or insignificant transfer to skin.*

- Candles of all types (including encased);
- Laundry detergents for machine wash with minimal skin contact (e.g. Liquid tabs, pods);
- Automated air fresheners and fragrancing of all types (concentrated aerosol with metered doses, plug-ins, closed systems, solid substrate, membrane delivery, electrical, powders, incense, liquid refill (cartridge) air freshening crystals, solid non aerosol car diffuser;
- Air delivery systems;
- Cat litter;
- Cell phone cases;
- Deodorizers/maskers not intended for skin contact (e.g. fabric drying machine deodorizers, carpet powders);
- Dry cleaning kits (placed in the dryer);
- Dryer sheets and fabric softener sheets;
- Fuels;
- Insecticides (e.g. mosquito coil, paper, electrical, for clothing) excluding aerosols/sprays;
- Joss sticks or incense sticks;
- Dishwash detergent and deodorizers for machine wash;
- Olfactive board games;
- Paints;
- Plastic articles (excluding toys);
- Scratch and sniff;
- Scent pack;
- Scent delivery system (using dry air technology);
- Shoe polishes;
- Rim blocks (Toilet);
- Toilet gel;
- Scent beads.

## IFRA CONFORMITY CERTIFICATE 51st Amendment

Code **80684**

**FRAGRANCE PIN – RED JASMINE**

19-08-2025

### \*\*\*IFRA 51st AMENDMENT\*\*\*

On June 30th 2023, IFRA has issued the 51st Amendment to its Standards for the safe use of fragrance ingredients.

Beginning with the 49th Amendment, IFRA Standards reflect the introduction of several improvements to the risk assessment methodology. These improvements specifically relate to the revised methodology of Quantitative Risk Assessment for fragrance ingredients for dermal sensitization (hereafter QRA2) and a new way to assess systemic toxicity based on an aggregate exposure model.

The main impact relates to the identification of acceptable levels of fragrance ingredients in different product types and their management, on a practical basis, through grouping distinctive product types into product categories with specific limitations.

The applicable timelines for the 51st Amendment are as follows. These timelines refer to mixtures of fragrance ingredients (formulas) and not to finished consumer product(s).

|   | Date for Standards entering into force for new creations           | Date for Standards entering into force for existing creations        |
|---|--|--|
| IFRA Standard prohibiting the use of ingredients                                | 2 months after the date of the Notification (i.e. August 30, 2023) | 13 months after the date of the Notification (i.e. July 30, 2024)    |
| IFRA Standards restricting or setting specifications for the use of ingredients | 9 months after the date of the Notification (i.e. March 30, 2024)  | 28 months after the date of the Notification (i.e. October 30, 2025) |

### Note box:

Due to the possible ingestion of small amounts of fragrance ingredients from their use in products in Categories 1 and 6, materials must not only comply with IFRA Standards but must also be recognized as safe as a flavoring ingredient as defined by the IOFI Code of Practice ([www.iofi.org](http://www.iofi.org)). For more details see chapter 1 of the Guidance for the use of IFRA Standards.

- The IFRA Standards are based on safety assessments by the Panel of Experts of the RESEARCH INSTITUTE FOR FRAGRANCE MATERIALS (RIFM) and are enforced by the IFRA Scientific Committee.

The creative perfumery procedures in Holland Aromatics Fragrances ensure that Fragrance compounds are composed only of ingredients approved by the safety clearance procedure, and satisfy, according to the current state of knowledge, the safety requirements for the intended application under normal and reasonably foreseeable conditions of use.

For other kinds of application or use at higher concentration levels, a new safety evaluation may be needed; please contact Holland Aromatics.
